

World Environmentalism

A Person of Interest

Name:

Instructions: Make an informative pamphlet (as a google doc or other form of online word processor) about a Glocal Change-Maker that you feel like people should know about for their good works. With your pamphlet make sure you are answering the following questions.

- Who is the person as an individual? (Where are they from, how old are they, ideally - what got them involved?)
- What work is this person known for?
- How has their work had an effect on their wider community?
- What global implications has their work had?

Format this assignment as a persuasive piece that answers the questions, “who is this person?” “What have they done?” and “Why are they so significant that we should know about them?”
