Design an Eco-Adventure Step 1: Project Planning

Leveled Assessment: ____/4 Score: ____/5

Name:

Section:

Directions:

Step 1: Project Planning

Directions: Work through the following steps to begin the process of planning your eco-adventure. The paragraphs will be inserted into your project in step 3, so have them stored electronically somewhere where they can easily be accessed later.

Location: _____

Justification Paragraph

Why are you choosing this particular location to go on your eco-adventure? What are you hoping to see/do/experience? Why is the location of ecological importance?

Benefits of Ecoadventure Paragraph

What are you hoping to personally gain from this adventure? How will this help you personally and professionally? How will this help you be a better steward of the planet? What is an action you are hoping to take after this adventure to benefit others?

Ecological Work Paragraph

What is an international organization that is already working in the area? What are their goals and what are they doing to preserve the area? How might you partner up as part of this organization for your ecoadventure?

Step 1: Project Planning Worksheet

Directions: Keep track of your expedition details below.

Admission Costs: (Park fees, visa costs, exit fees)

Transportation: (Costs, estimated time,

Accommodations: (Name and cost per night, as well as type of accommodation)

Steps you're taking to reduce carbon footprint: (List and explain 3)

Site Wishlist: (List 15 sites – 10 environmental and 5 cultural)
