Directions: Watch to 2012 TED talk by Hans Rosling and answer the following questions.

1. What connection is there between religions and the number of babies a woman will have? How does he illustrate this connection?

2. What factor(s) is the main contributing factor impacting the number of babies a woman will have during her lifetime? Which countries/points does he use to validate his argument?

3. What does he mean by the "great fill up"? How does he use this to demonstrate further population growth.
