I. Description:

This one semester class will introduce students to the systematic study of patterns and processes that have shaped human understanding, use, and alterations of the Earth's surface. By looking at the relationships between cultural groups and their physical geography it is possible to find relationships that allow geographers to understand better how humans are shaped by their physical world, and change it in turn. We will be looking at different cultural phenomenon such as language, religion, government, and economic systems in order to make connections between different cultural set and how they interact with one another. This course is designed to increase the students' understanding of the world and develop their critical thinking skills.

II. Text:

Tredinnick, Kyle, *Human Geography: A Planet of Interactions*, 2016

III. Content Essential Outcomes:

- Use geographic representations and geospatial technologies to acquire, process, and report information within a spatial context.
- Identify how characteristics, distribution and migration of human populations on the earth's surface influence human systems (cultural, economic and political systems).
- Describe the spatial distribution of significant cultural and/or ethnic groups in the United States and the world and how/why these patterns are changing over time.
- Define cultural relativism and explain how cultural beliefs impact processes of cooperation and conflict among people that influence the division and control of the earth's surface.
- Examining regional stereotypes and stigmas based off of perceived and actual differences.

IV. Literacy Essential Outcomes:

- Analyze how a text uses structure to emphasize key points or advance an explanation or analysis.
- Determine the meaning of words and phrases as they are used in a text, including vocabulary describing political, social, or economic aspects of history/social science.
- Identify reputable sources.
- Identify the elements of a reputable source and appraise example sources.
- Write an argument using an assertion, reasoning, and evidence format in paragraph form, using provided materials as support.

V. Course Literacy Objectives:

- Students will complete worksheets on articles where they summarize and analyze the key points of the article.
- Students are given a number of essential class based vocabulary words which they will be required to use in a number of formative assessments throughout the course of the unit, and then again in unit tests throughout the course of the year.
- In the final project students are required to find information about countries, using reputable sources provided by the teacher. They include their sources so they can be reviewed for accuracy.
- Students observe differences between non-reputable (Wikipedia) and reputable (CIA World Fact book) sources. Students are required to use reputable assignments in a number formative assignments as well as their final project.
- Students must come to a conclusion about the detrimental impacts of humans on the environment using in-class materials to form their support. Assignment is discussed and graded in class.

VI. Classroom Policies:

- Students need to be respectful to the teacher, other students, themselves, and the classroom.
- Students will be required to do their best every day.
- Students will be required to ask questions, complete work on time, come to class on time with the correct materials, and take the time to help other students.
 - *Late work will be reduced to 85% at time it is due, 75% the next class period, 50% two class periods later, no credit afterward.*
 - *Any student caught copying another student's assignments will be given a 0 on the Assignment and may face additional consequences.*
 - *Students who miss a test with an excused absence will have to arrange a time with Mr. Tredinnick within 2 class periods to make it up. (Lunch, Before or After school)*
 - **Tests missed with an unexcused absence or Tardy will not be allowed to be made up**
- Students will need to bring a pen/pencil, notebook, journal, and textbook to class every day.
- Students will be required to speak English in the class.
- Cell Phones and other electronics need to be put away by the time the bell rings!
 - Any electronics remaining in use will be confiscated for the class period for the first offense, and the rest of the day for any offense after that.
 - Failure to do so will be viewed as insubordination and be referred to Principal.
 - If you are expecting an important call you must have a note from the front desk authorizing you to take it.
 - Electronics used for classroom use (dictionaries, taking notes, etc...) will be assessed at the teacher's discretion.

VII. Language Requirements:

- Students will be required articulate their ideas about geographical ideas in written essays, and opinion papers throughout the course of the year.
- Students will evaluate geographical problems and provide their opinions in class discussions and in debates.
- Students will expand their understanding of the concepts of Human Geography through readings in their textbook and additional readings given by the instructor throughout the course of the year.

- Students will practice their listening skills by listening to lectures, the ideas of others students, guest speakers, and different types of media.
