

Cartography

Making a Mental Map

Name:

Section:

Directions: In no more than 5 minutes draw as detailed a map as you can of a place or route that you know well. You can draw your neighborhood, a layout of your room, the route you take to school, or even your city. Once finished answer the series of questions below.

Thought Questions:

1. What elements did you decide to include in you map? What did you leave out? Why did you include what you did, and why did you leave some things out?

2. How might your map be helpful? Who will this map be useful to and how?

3. If you had more time what types of things might you change to your map?
