

## Psychology

Researching a Mental Illness

Leveled Assessment \_\_\_\_/4

Name: \_\_\_\_\_

Section: \_\_\_\_\_

Score: \_\_\_\_/5

---

Directions: Choose one particular Mental Illness and research more about it using the DSM, or other Internet resources (The Mayo Clinic Guide is one of the better sources).

### Thought Questions:

1. Which Mental Illness are you researching: \_\_\_\_\_
2. List the Symptoms of the illness:
3. What factors are believed to cause the illness?
4. How is an individual impacted by the illness?
5. What are the methods used to treat the illness?
6. Come up with your own ideas (at least 3) of ways that you could help a friend, classmate, or family member with this illness.
  - a.
  - b.
  - c.
