

## Behavioral Science

### Treating Mental Disorders

Directions: Read the Simply Psychology article on the Medical Model of treating Mental Disorders and answer the series of questions below.

<https://www.simplypsychology.org/medical-model.html>

1. What is the DSM and how is it used to Diagnose Mental Disorders?
2. What are the positives and negatives of the following types of treatments for mental disorders?
  - Medication
  - Electro Convulsion Therapy
  - Psychosurgery
3. Using your ideas, what is the importance of a support network (usually made up of close loved-ones, or people facing similar issues) for the treatment of anxiety, depression, stress, or another mental disorder?
